Telemedicine opens the door to healthcare for both patients and providers... The benefits are endless - an improvement in patient health, reduction in hospitalization, and significant reduction in cost... Telemedicine has allowed me to positively impact the lives of numerous patients.

Dr. Natasa Rimar
Board-Certified Endocrinologist
ADVANCING TELEHEALTH THROUGH KNOWLEDGE

Through our partnership with the California Telehealth Resource Center (CTRC)—one of the country’s leading resources for telehealth education, expertise and implementation guidance—CTN provides expanded telehealth training and support to its members. CTRC has an array of program guides, tools, templates and other materials, as well as access to national telehealth experts. Visit www.caltrc.org.
