

**BEFORE THE PUBLIC UTILITIES COMMISSION
OF THE STATE OF CALIFORNIA**

Order Instituting Rulemaking to Consider
Rulemaking 12-10-012 Modifications to the
California Advanced Services Fund

R12-10-012

(Change the above text if commenting in a proceeding different than R12-10-012!)

COMMENTS OF YOUR NAME/ORGANIZATION

Name

Title/organization (if applicable)

(If your comments are longer than 20 pages, you need to include your address, phone, and email here as well. Otherwise, providing this info at the end is sufficient).

Date

Pursuant to Rule 14.3 of the California Public Utilities Commission’s (“Commission”) Rules of Practice and Procedure, **Name/organization** submits these comments in the above-referenced rulemaking docket to consider **modifications to the California Advanced Services Fund (“CASF”)**. Change this text if in a different proceeding than the CASF one.

Provide your comments. Keep font at least 12 point, spacing 1.5, and margins 1”. Remember that your comments must be accurate and truthful, and be considered as “under oath.” Comments must be within the scope of the proceeding and meet the submission deadline. Reply comments can only address issues that have been raised in other comments and also meet submission deadlines.

IMPORTANT: Your comments then need to be “served” (which means simply to email) to the current Service List for the proceeding on the same day that you submit your comments to the PUC. This sounds harder than it really is. Then, the people on the service list have 15 days to “reply” to your comments (using the same procedure of sending out their reply-comments to everyone). And vice-versa...you can reply-comment to what others have said. Reply-comments are usually limited to 5 pages.

You can find the up-to-date service list here:

https://ia.cpuc.ca.gov/servicelists/sl_index.htm

- Scroll down the huge list to find **R1210012** for the CASF proceeding (or a different number for another proceeding) and click “list”
- Look for the “Download the Comma-delimited File” link at the top of the list to download a spreadsheet with all the service list contact info. The first column contains the email addresses for easy copying and pasting for your email.

Respectfully submitted
